

## **‘SUPERLUBE’ Pressure Die System™**

Introducing the new! ‘SUPERLUBE Pressure Die System™

The introduction of the ‘SUPERLUBE’ Pressure Die System™ has generated a considerable amount of interest within the wire drawing industry. Several major wire manufacturers are achieving excellent results from the introduction of this system. The advantages over conventional dies or other types of pressure die are:

- Faster Drawing Speeds
- Longer Die Life
- Excellent results on mechanically descaled rod
- Fits into standard die box
- Easy die change
- Lower die costs.

The unique design is registered to Bar Products & Services Ltd along with the trademark ‘SUPERLUBE’ Pressure Die System™, and is a superb addition to the portfolio of products already being successfully manufactured, and globally marketed by the company.
